

# UNDER THE SEA!

Let's go UNDER THE SEA! For this activity, we will be exploring what lives under the sea and learning how these creatures move! From swimming, gliding, leaping and cruising; let's see if we can move just like them!

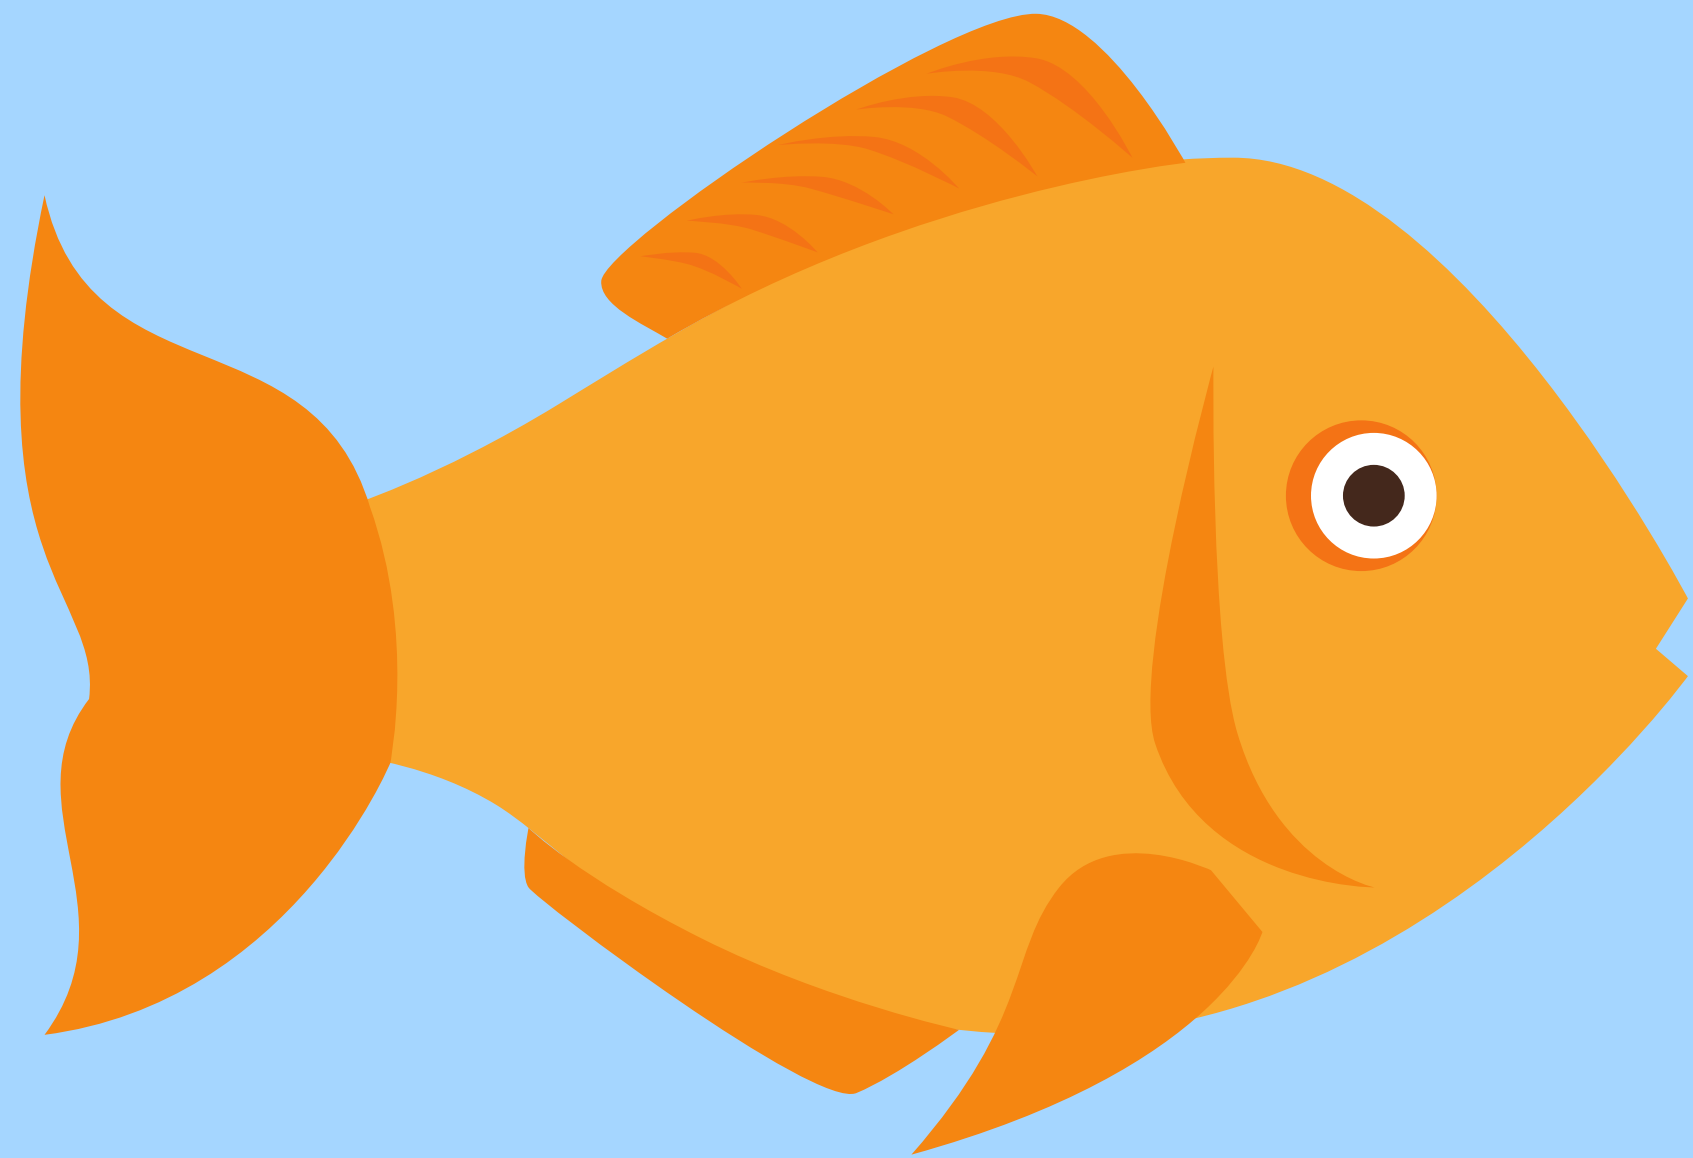

Use the animal cards in this pack to inspire your improvisation. You can work through each animal as a group or all have your own favourite animal to explore how they move. You could put all of the animals in a bag and make it a lucky dip, taking turns to pick out a new animal for everyone to move like!

# FISH
